Michael Husayni

Dearborn Heights 48127, United States of America +1 313 289 3133
michaelhusayni@gmail.com https://www.linkedin.com/in/mikehusayni

Profile

Driven and ambitious cybersecurity professional with hands-on experience in network engineering, customer service, and leadership. Actively pursuing entry-level opportunities in IT and network engineering as a pathway to a successful career in cybersecurity. Possess a great foundation in ethical hacking, Linux systems, and network security, combined with a proven track record in client relations and team management. Committed to continuous learning and growth within the technology industry, with a focus on innovation. Ready to leverage technical expertise and interpersonal skills to make a significant contribution to an organization, while advancing into the cybersecurity field. Passionate about digital security and dedicated to acquiring new skills to drive success and evolution in this dynamic sector.

Work experience

09/2023 – 01/2024
MINNEAPOLIS, UNITED STATES OF AMERICA
Network Engineer
Aston Technologies Inc

- Conducted network discoveries using ARP and MAC address table analysis to optimize network topologies
- Implemented OSPF and BGP routing protocols and designed ACLs and filtering rules to enhance network security
- Managed Active Directory configurations and sustained DNS and DHCP services to support network functionality
- Directed the selection and acquisition of network equipment to guarantee cost-effectiveness and alignment with project budgets
- Authored High-Level Design (HLD) and detailed Low-Level Design (LLD) documents for accurate network deployment
- Installed and configured access points and wireless controllers as per LLD to improve network coverage and performance
- Developed Method of Procedure (MOP) documents to standardize operational and maintenance processes for network reliability
- Quickly identified and resolved network issues to minimize downtime and maintain operational standards

Work experience

- Collaborated effectively with cross-functional teams to deliver projects on time, within budget, and according to technical and client specifications.

10/2022 – 08/2023
ANN ARBOR, UNITED STATES OF AMERICA
Student
Nexus at University of Michigan Engineering

- Attained a comprehensive understanding of cybersecurity's significance across diverse sectors, challenging traditional perceptions of its confinement to governmental domains.
- Applied technical expertise in Active Directory Domain Services, applying the least privilege model and bolstering endpoint security measures to mitigate internal threats and prevent privilege escalation.
- Developed essential networking proficiencies, prioritizing network separation, ACLs, port security, VLANs, and subnetting techniques to deter unauthorized network access.
- Acquired practical experience with Cloud Service Providers (CSPs), focusing on virtualization, cloud security practices, and implementing the least privilege principles through Group Policy Objects (GPOs). Demonstrated a fundamental understanding of Software-Defined Networks (SDN).
- Mastered Unix terminal fundamentals, user permission management, and network administration. Strengthened expertise in securing Linux operating systems and networks.
- Demonstrated knowledge of comprehensive endpoint protection strategies, encompassing authentication protocols, port security, firewalls, IPS, and IDS implementations.
- Adopted a holistic approach to network architecture security, leveraging SIEM & SOAR tools to enhance blue team efficacy through streamlined alert aggregation and correlation practices.
- Cultivated programming skills in Python with a focus on secure coding practices for both defensive and offensive cybersecurity measures.
- Expanded knowledge of hacker techniques and defenses against cyber threats, including social engineering tactics, network vulnerabilities, application risks, and cryptographic attacks. Utilized tools for vulnerability discovery and exploitation.
- Explored digital forensics and incident response

Work experience

strategies, gaining insights into IoT vulnerabilities and protective measures.

01/2020 – 08/2023
LINCOLN PARK, UNITED STATES
Building Substitute
Edu Staff, Lincoln Park High School

- Provided coverage for teachers in need of substitutes, delivering daily activities and lessons to students in a professional and educational manner
- Assessed and handled student behavior challenges by carrying out sensory diets, proper redirections, and emotional guidance to ensure academic focus and success
- Implemented lesson plans and provided instruction to students in various subject areas, keeping a productive and engaging learning environment.
- Adapted to diverse classroom settings and student requirements, fostering positive relationships with students and staff members.
- Collaborated with teachers and administrators to insure continuity of instruction and meet educational goals.
- Managed classroom behavior and provided support to students in need, promoting a safe and inclusive learning environment.
- Adhered to predetermined lesson plans and adapted accordingly in the absence of a prepared lesson.
- Demonstrated exceptional adaptability and creativity, consistently maintaining flexibility across all job responsibilities.
- Effectively communicated with students, colleagues, and superiors to deliver a superior standard of education.

01/2019 – 12/2019 DEARBORN, UNITED STATES
Mobile Expert
T-Mobile

- Delivered exceptional customer service, surpassing monthly revenue goals, and actively participated in marketing campaigns
- Supervised store operations, including inventory control, cash management, and ensuring store aesthetics
- Assisted customers with service activations, resolved billing inquiries, and provided innovative technology solutions.
- Spearheaded the development and implementation of new mobile marketing strategies, resulting in a 20% increase in customer engagement.
- Collaborated with cross-functional teams to troubleshoot and resolve technical issues related to mobile devices, assuring optimal performance for customers.
- Conducted regular training sessions for staff on the latest mobile technologies and updates, improving overall product knowledge and customer satisfaction.
- Managed inventory and replenishment of mobile devices, accessories, and supplies, preserving accurate records and ensuring availability for customers.

07/2014 – 12/2018 ALLEN PARK, UNITED STATES
Personal Training Director
LA Fitness

- Demonstrated leadership and development by achieving Master Trainer status and leading recruitment efforts within Personal Training and Membership Sales
- Directed a high-performing team passionate about fitness, resulting in significant sales achievements and increased member satisfaction
- Spearheaded fitness orientation sessions for new members, emphasizing equipment usage and personal training benefits
- Developed tailored training programs focusing on injury prevention and health optimization, leading to bi-weekly personal training package sales of $35,000-$40,000
- Drove membership growth as General Manager through strategic sales initiatives, community engagement, and local partnerships
- Built strong relationships with prospects and members, customizing memberships to meet individual needs
- Cultivated a culture of excellence among staff through targeted training in sales techniques, customer service, and fitness education
- Empowered employees to exceed sales targets by effectively overcoming objections and demonstrating the value of fitness and wellness
- Maintained comprehensive training records, assessing client progress and adjusting programs as needed to enhance client satisfaction and retention rates
- Applied operational best practices to optimize gym floor management and staff performance, guaranteeing a positive, results-driven environment.

Education

10/2022 – 08/2023 ANN ARBOR, UNITED STATES
Cybersecurity | Cybersecurity Professional Certificate
Nexus at University of Michigan Engineering

12/2005 – 01/2008 DEARBORN, UNITED STATES
Liberal Arts | Associate
Henry Ford Community College

Skills

Network Security
Incident Response
Threat Intelligence
Ethical Hacking

Skills

Network configuration
Troubleshooting
Team collaboration

Classroom management
Lesson planning
Adaptability
Communication skills

Programming Languages
Network Security
Problem Solving
Cloud Computing

Empathy and patience

User account management
Group policy administration
Active Directory design
Troubleshooting and support

Threat identification
Security monitoring
Risk assessment

Certificates

08/2023
Program Certificate for Cybersecurity Professional Bootcamp
Nexus at Michigan Engineering
https://certificates.nexus.engin.umich.edu/fb5d2baa-8c2f-4b0b-b9c8-590d06db126f

04/2023
Linux Essentials Certification
Linux Professional Institute (LPI)
lpi.org/v/LPI000562734/7n8hlpb66r

Strengths

- Strong troubleshooting skills
- Excellent communication abilities
- Extensive technical knowledge
- Effective problem-solving
- Detail-oriented approach
- Proven track record
- Proactive, vigilant, analytical
- Detail-oriented, tech-savvy, adaptable
- Strong communicator, problem solver, quick thinker
- Detail-oriented
- Observant
- Analytical
- Alert
- Proactive
- Diligent
- Empathetic

Hobbies

Space
Video games
Strength Training
basketball
